

## **AIP040**

Simple, Cost-effective,  
Space reducing

Air in Place is a portable system made by a very **simple, economic and compact machine** with pre-cut and pre-welded joint plastic film, to produce air pillows of different dimensions at time of packaging, without the need of compressors or compressed-air systems.

Designed to **significantly reduce cost** of packaging, shipment and labor, the machine produces ultra-light pillows filling all unused space inside the box.

The pillows are recyclable and reusable. The film, available in different thicknesses, provides an excellent air retention and resistance, and may also be obtained with antistatic qualities.

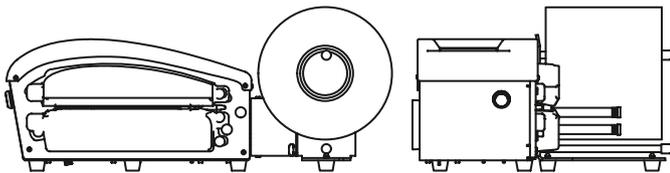

AIP 040 is the latest model of Air In place equipment, designed with a simple and immediate interface that offers:

- Automatic film identification
- Possibility of programming production cycles based on

time, length, number of bags or on the filling a container (by connecting to a photocell).

- Possibility to inflate special large “quilt” pillow that guarantees protection even in the event of partial breakage.

AIP 040 further simplifies the production of bags and offers a complete range of possibilities for perfect packaging with air cushions.

68 x 61 x h23 cm with reel kit	14 kg	NO	220/240Vac	300 W

### AIP FILM Pre-cut and pre-welded film reel in MDPE (Medium density polyethylene)

Thickness	Band	Pre-cut	Code	Flexography	Length mt.	Description	Reels on pallet
22 µm	200 mm	100	7A0011	NEUTRAL	500	REEL 22MY BAND 200 PRE-CUT 100 NEUTRAL	72
			7A0018	AIP		REEL 22MY BAND 200 PRE-CUT 100 PRINTED	
		120	7A0001	NEUTRAL		REEL 22MY BAND 200 PRE-CUT 120 NEUTRAL	
			7A0002	AIP		REEL 22MY BAND 200 PRE-CUT 120 PRINTED	
		150	7A0003	NEUTRAL		REEL 22MY BAND 200 PRE-CUT 150 NEUTRAL	
			7A0004	AIP		REEL 22MY BAND 200 PRE-CUT 150 PRINTED	
	400 mm	100	7A0005	NEUTRAL		REEL 22MY BAND 200 PRE-CUT 200 NEUTRAL	
			7A0006	AIP		REEL 22MY BAND 200 PRE-CUT 200 PRINTED
