

## **PadPak<sup>®</sup> LC2 PLUS**

Light and medium protection  
also with recycled paper

PadPak<sup>®</sup> LC PLUS has been developed to create light or medium padding and to protect both fragile and standard objects up to about 15 kg.

The ability to work with both virgin and recycled paper and to create large volume pads make this machine very versatile.

**PadPak® LC2 PLUS - 7Z0023**

**PRODUCT ADVANTAGES**

- An improved technology produces high-volume pads with the same amount of paper
- Ability to work effectively, even with economic paper
- Highly eco-friendly packaging solution with Ecoline recycled papers (70 and 90 gsm)
